Application No. 10/039,311
Amendment B

REMARKS

Responsive to the Office Action mailed September 7, 2005, Applicants provide the following. Applicants thank the Examiner for indicating that claims 1-15 and 23-30 are allowable, and that claims 17, 20-21, 32 and 37 contain allowable subject matter. Claims 15 and 17 have been amended to correct minor typographical errors. Claim 16 has been amended to include the limitations of claim 20, and claim 31 has been amended to include the limitations of claim 32. Claims 20 and 32 have been canceled. Thirty-five (35) claims remain pending in the application: Claims 1-19, 21-31 and 33-37. Reconsideration of claims 1-19 and 21-31, 33-37 in view of the amendments above and remarks below is respectfully requested.

By way of this amendment, Applicants have made a diligent effort to place the claims in condition for allowance. However, should there remain any outstanding issues that require adverse action, it is respectfully requested that the Examiner telephone the undersigned at (858) 552-1311 so that such issues may be resolved as expeditiously as possible.

References Cited by Applicants and Not Considered by Examiner

1. Applicants respectfully request the Examiner consider the Information Disclosure Statement references submitted to the Office on April 26, 2004 a copy of which is attached herewith. A very similar list of U.S. Patent references was submitted to the Patent Office in an information disclosure statement (IDS) on December 13, 2002, and the listed references were considered by the Examiner. However, two additional references were submitted in the April 26, 2004 IDS, specifically: U.S. Patent No. 5,120,499 (Baron) and U.S. Patent No. 5,166,528 (Le Vay). Therefore, consideration of all the IDS references submitted on April 26, 2004 is respectfully requested.

Claim Rejections - 35 U.S.C. §102

2. Claims 16, 18, 19, 22, 31 and 33-36 stand rejected under 35 U.S.C. § 102(b), as being anticipated by U.S. Patent No. 4,063,890 (Baron).

Independent claim 16 has been amended to include the limitations of dependent claim 20 that has been identified as containing allowable subject matter, and independent claim 31 has been amended to include the limitations of dependent claim 32 that has similarly been identified as containing allowable subject matter. Therefore, independent claims 16 and 31 are now in condition for allowance, as the Baron patent fails teach at least each element of amended claims 16 and 31.

Furthermore, the dependent claims 18, 19, 22, and 33-36 are also not anticipated by the Baron patent. The dependent claims 18, 19, and 22, which depend from amended claim 16, are also not anticipated by the Baron patent at least due to their dependence on amended claim 16. The dependent claims 33-37, which depend from amended claim 31, are also not anticipated by the Baron patent at least due to their dependence on amended claim 31.

Allowable Subject Matter

3. Applicants again thank the Examiner for indicating that claims 1-15 and 23-30 are allowable and that claims 17, 20-21, 32, and 37 would be allowable if rewritten in independent form. Claims 20 and 32 have been canceled and substantially all of their limitations have been amended into independent claims 16 and 31, respectively, as discussed above in paragraph 2. Therefore, Applicants respectfully submit that all of the pending claims 1-19, 21-31 and 33-37 are in condition for allowance.

Amendment B

CONCLUSION

Applicants submit that the above amendments and remarks place the pending claims 1-19, 21-31 and 33-37 in a condition for allowance. Therefore, a Notice of Allowance is respectfully requested.

Respectfully submitted,

Dated: December 7, 2005

Remarks

Note: Remarks are not for responding to an office action.

Applicants note that an electronic IDS was previously filed on December 12, 2002. Because the December IDS has not been entered on PAIR, it is assumed that the PTO may not have received the aforementioned electronic IDS. Therefore, Applicants have recited herein the references previously cited in the December 22, 2002 electronic IDS for the Examiner's convenience.
